Skill Highlights

- **Java:** main traits: `reflection`(with annotations and generics), java8 `streams`, `multithreading`
- **Java libraries:** e.g. `Spring Framework`, `JPA(Hibernate)`, `lombok`(getters, setters and more), `Log4j`
- **Java unit tests:** `JUnit`, `Mockito`
- **Java build and dependency resolution:** `Ant+Ivy`, `Gradle`
- **Shell scripting:** excellent in *nix `bash` shell scripting and windows `batch`
- **Continues Integration and Deployment:** Worked on CI&D processes using `Jenkins` and `docker`
- **Regular Expression:** You can't spell shell scripting without regex

Education

Full Bagrut where the main points were: 10 in Computer science(using `C#`), 5 in math and 5 in English

IDF's programming course aka MAMRAM

MAAT Engineer

Army service

5.5 years of Army service as a software developer at IAF's software unit, Ofek.
Release rank is 'Sergeant Major'

Work Experience

Aug 2016-Apr 2018 *senior developer & consultant*, Ofek IDF

Created and used a new framework using `Spring Framework`, `Hibernate`, `docker` and development for `microservices` and `cloud distribution`.

Jul 2015-Aug 2016 *senior developer & consultant*, Ofek IDF

Added Continues Integration and Deployment(CI & CD) process for all the projects in our organization using `jenkins`, `java`, `ant` and a lot of `windows batch` and `linux bash` scripts.

Sep 2013-Jul 2015 *developer*, Ofek IDF

Fixed a main project that had performance issues, upgraded the `Java` standard library from 4 to 7, added tests, added `Ant+Ivy` for processes like `JAXB`, compilation, testing and building kits

2010-2011 *developer*, Home

Developed PHP sites alongside my father using no libraries, using server: `php` and `mysql`, client: `Javascript`, `AJAX`, `HTML` and `CSS`. Our sites worked good with google
